DETAILED ACTION

Allowable Subject Matter

1. Claims 1-2,4-19, and 21-22 are allowed. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or fairly suggest the claimed invention.
2. Specifically, no teaching or obvious suggestion was found of the limitation " the processing means simultaneously displays defect candidate distribution data in a wafer map format on the display screen and an enlarged actual image of a defect candidate on the display screen" in combination of the other limitations in claims 1, 8, and 18.
3. Claims 2, 4-7,9-17, and 21-22 are allowed by virtue of their dependency.
4. US Pat No. 5,777,327 issued to Mizuno teaches simultaneously display of defect images (see col.5, lines 46-67). However, Mizuno fails to teach or fairly suggest the above-mentioned limitation in combination with the other recited requirements of claims 1, 8, and 18.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays,

should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US Pat No 6,919,564 issued to Nara et al and US Pat No. 6,476,913 issued to Machida et al are relevant to the claimed invention, but fail to qualify as prior art.
